

Suburban Patrol Concepts

Thursday November 19, 2026 09:00 AM - 5:00 PM

Bellmawr Fire & Rescue 29 Lewis Ave, Bellmawr, NJ 08031

This class will focus on proactive patrol concepts to prevent crime before it happens and to stop crimes in progress. We will reference case law and state statutes that support the "why" behind our actions.

This class is for all Patrol Officers and Patrol Supervisors, with a focus on suburban areas. There will be a block dedicated to proactive white collar crime investigations such as bank fraud, credit card fraud, identity theft, card skimming, and money laundering.

Officers will not only learn how to be more thorough and safe during proactive contacts, but they will also learn how to navigate their careers as proactive officers. We will cover mindset, preparation, attitude, work ethic, team building, leadership, and community policing. The goal of this course is not only to create and develop highly effective patrol officers and supervisors but also to turn those same officers into leaders of their Departments.
