

**FORENSICS 360, LLC**

This course is designed for crime scene investigators, forensic personnel, and new police officers that want to improve their skills in lifting latent prints.

# Basic Latent Print Processing, Documentation, and Lifting from Difficult & Textured Surfaces

16-HOURS  
\$495

## COURSE OBJECTIVES:

By the end of this 16-hour course, participants will be able to:

- Understand the fundamentals of latent print formation and surface considerations.
- Properly develop, lift, label, and document latent prints using industry-standard methods.
- Maintain complete and court-ready documentation, including accurate lift card annotations.
- Apply practical lifting techniques on smooth, textured, and difficult surfaces.
- Preserve evidence integrity and recognize factors that impact print quality and usability.
- Connect field recovery to forensic reporting, laboratory analysis, and courtroom presentation.
