ABOUT THE CLASS

Street-Level Policing: PA Traffic Stop Edition is a focused, high-impact course created by Officer Jim Petrucci for law enforcement officers who want to take their traffic stop skills to the next level—while staying grounded in real, applicable Pennsylvania case law. This class zeroes in on the most common tool in proactive policing: the traffic stop. But here, it's anything but routine.

Officers will learn how to spot the behaviors that could indicate criminal activity is unfolding right in front of them—and how to take legal, strategic action without hesitation. You'll walk through exactly how to conduct stops safely and efficiently, apply PA-specific case law, obtain consent, call for a canine when it's right, and more. A major focus is placed on roadside interviews—how to run them the right way, control the narrative, and uncover the truth. You'll leave with a bulletproof system that takes the guesswork out of your stops and keeps your cases clean.

The course also touches on high-crime area policing and offers a clear process for preserving key evidence like firearms and cell phones, all while staying within legal and ethical boundaries. While pedestrian and bicycle stops are mentioned, this class is heavily geared toward vehicle-based enforcement, officer safety, and real-world decision-making.

Backed by body cam and dash cam footage, this course shows you how it all plays out in the real world. Whether you're fresh out of the academy or already running traffic-heavy shifts, PA Traffic Stop Edition delivers practical, no-fluff training that will sharpen your approach, protect your cases, and help you build a reputation as a professional who gets it done the right way.
