This course aims to equip narcotic investigators with the knowledge of their duties and responsibilities in drug investigations, while also assisting in the disruption of illegal narcotic possession, distribution, and manufacturing. It provides investigators with the tools necessary for preparing and executing narcotic-related operations, enhancing their overall investigative efforts. Designed as an "open forum," this course encourages everyone to participate and share insights on innovative methods to stay ahead of illegal narcotic distributors. Students will engage in real-life scenarios and experience hands-on training.
