60-day free trial of LeadsOnline Nighthawk for new users

NIGHTHAWK

Hi-Tech Investigations, LLC.
Digital Data & Cellular Record Analysis with Nighthawk

This hands-on course is designed for brand new or current Nighthawk users that are ready to take their ability to analyze, interpret, and apply digital data to investigations to the next level. LeadsOnline Nighthawk is a one-of-a-kind web accessible software that lets the user fuse numerous different digital data sets, associate data to individuals, easily see interactions and communications with multiple people, intersect data with time and locations, collaborate with others, find missing evidence, and automatically export the data into a powerful presentation for prosecutors and court.

Training Location:

VIRTUAL – LIVE ONLY
Pacific: 07:00am to 3:00pm
Mountain: 08:00am to 4:00pm
Central: 9:00am to 5:00pm
Eastern: 10:00am to 6:00pm

Hands-On	Digital Data	Deep Dive	*Required Equipment*
This course is hands-on. You will be using actual case data to solve crimes in class. The hands-on approach helps solidify advanced tradecraft that you can put to use in current and cold cases.	Students will be instructed on how to analyze cellular records, cell tower/area searches, Cellebrite extractions, geolocation data, social media content, motor vehicle digital data, and so much more.	Where did the suspect travel before and after a crime? Does the suspect & victim have common associates? Who is the unknown accomplice? Confidently answer these questions and much more.	Non-Nighthawk users will be provided with a free trial. Students need to bring a laptop or windows tablet (no iPad) with Chrome or Edge pre-installed (mouse recommended). Students will need to download Google Earth Pro for Desktop prior to traveling to class. www.google.com/earth/about/versions/

May 11-13, 2026
Cost: $750

Training hours: 21.0

Lead Instructor Spotlight:
Jeff German is a Detective with the City of Joliet, IL Police Department and the owner of Hi-Tech Investigations, LLC. Detective German has over 22 years' experience as a Police Officer and over 12 years' experience as a Detective and an Investigator for the Will/Grundy Major Crimes Task Force. He is a certified Subject Matter Expert in Cellular Records and Geolocation Analysis and has testified as a court recognized expert in Illinois and Tennessee. Detective German has taught over 100 classes and webinars to police, crime analysts, and prosecutors since 2021 to over 8,000 students across the country.
